CITY TRUSTEES.

At the meeting Wednesday evening all members were present. Demands aggregating \$41.25 were referred to the finance committee. Demands amounting to \$40.10 previously referred to same committee, were reported back approved. A communication was read from the Title Guarantee and Trust Company giving record owners of property to be deeded to the city of Glendale as an extension of Mary street was read and placed on file. A communication from the Valley Independent (E. M. McClure) signed by Charles E. Stanley, "As Power of attorney," was read, making the following proposition: "I hereby submit a proposition for the printing of the Fire Bond resolution passed March 27 inst. I will do the printing at the rate of 15 cents per inch brevier type twenty Ms. wide."

In consideration of the fact that the trustees had already entered into a contract with Mr. McClure to do the same work at fifty cents per inch (he then being proprietor of the Glendale News) the relevancy of his bill, did not seem to appeal to the trustees, (Mr. Anderson excepted) and the communication was placed on file.

A petition was read from E. D. Severance and others requesting that the official grade of Sixth street east of A street, be established. The city engineer was instructed to prepare the necessary ordinance recommending the grade for Sixth street between A street and the east line of the Childre tract.

The matter of compensation for the deputy city clerk and assessor was referred to the following committee: Messrs. Anderson and Jennings.

The map of Glen Ina Tract was presented and on motion referred to Public Works Committee to report at next meeting. An ordinance establishing the grade of Fifth street on the southerly side thereof, from a point 640 feet easterly of A street to Verdugo road, was taken up for first reading, was passed to third reading and went over until next meeting.

In regard to the petition for the improvement of Fifth street between Glendale avenue and Verdugo road, less than one-half the frontage being represented on the petition, it was referred back to petitioners and the question of the dedication of Fifth street was referred to the city engineer. The request of the street superintendent that he be allowed to do certain work on Second street east of Verdugo road, was granted. The clerk was instructed to notify the contractor having contracts for the improvement of parts of Fourth, Second and J streets and Glendale avenue, that he must proceed with the work and that no further extension of time on said contracts would be granted.

The city engineer reported the description of fire districts as correct, and on motion ordinance number 44 in amendment of "An ordinance

amending an ordinance regulating the constructing, altering, repairing and remodeling of buildings in the City of Glendale, etc." was adopted.

SHRINERS COMMITTEE.

The committee appointed to take charge of the reception to the Shriners on May 6, met at Masonic Hall, Saturday evening last. Mr. Frank E. Albright was appointed permanent chairman of the committee and Mr. G. U. Moyses, secretary. A committee consisting of L. C. Brand, J. McMillan and Willmot Archer, was appointed to make arrangements with the Pacific Electric Company if possible, to secure free service on the day of the reception, between Tropic, Glendale and Casa Verdugo. Mr. Dan Campbell was appointed chairman of the Entertainment Committee. The question of supplying the visitors with strawberries and flowers was discussed at some length and a resolution was unanimously adopted requesting the ladies' clubs of Tropic and Glendale to take charge of the collection and distribution of flowers on that occasion. In order that every one of our citizens should feel resting upon him a certain measure of responsibility for making the affair a perfect success, and to have a reception committee composed as nearly as possible of representatives from all sections and creeds, it was unanimously resolved that the secretary be instructed to send invitations to all Boards of Trade, Improvement Associations, churches, fraternal organizations and civic and social societies of every sort in our valley and adjoining towns, and settlements to name two or three of their members to act as members of the reception committee and to send in their names as soon as possible.

Committee adjourned to meet this (Saturday) evening at 4 p. m. at Masonic Hall.

SURPRISE PARTY.

On Saturday evening last, during the absence from their home of Pastor and Mrs. Stone, some people entered and went all through their house, piled things on the kitchen table and opening the doors invited others in. They were quite bold about it, for when the pastor and his wife returned they found about seventy of them still there and in no hurry to go. They had something to eat and drink with them and made themselves quite at home. And after they had departed it was found that in some way a goodly number of big round silver dollars had been left on the center table. They sound so good when they knock together that the pastor thinks he will not hunt for the owners. The occasion? Why it was the pastor's birthday. He was just one year older than last March. And thinks it isn't so bad to grow old in this way.

MARRIED.

Our young fellow townsman, Mr. Hugh Cornwell, and Miss Edith Parker, formerly of Eagle Rock Valley, were married at the residence of the bride's sister, Mrs. Luc on Rose avenue, Los Angeles, Wednesday morning. The Rev. C. R. Norton officiating. The wedding was a quiet one, only a few relatives and friends being present. The young folks left for Santa Barbara for a brief stay and will return to Glendale shortly to reside in the Snow cottage on Third street.

W. P. Baker and wife of Beaver Dam, Wis., visited Mr. and Mrs. F. H. Vesper this last week. Mrs. Baker was a schoolmate of both Mr. and Mrs. Vesper.

THE DISCOVERY OF THE PLANET NEPTUNE.

The planet Neptune is, so far as we know at present, the outermost member of the Solar System. It is an immense globe, nearly five times as large as the earth, being about 37,000 miles in diameter; and is more than two and three-fourths billion miles from the sun, around which it circulates in about 164 of our years. The history of its discovery is a most interesting story. The working out of the details formed one of the most stupendous problems in mathematics ever undertaken by astronomers, and in its successful solution presented the most complete confirmation of the truth of the grand Newtonian law of gravitation.

Previous to the discovery of Neptune, the remotest known planet of our system was Uranus, which was discovered by Sir Wm. Herschell in 1781. About 40 years later, in 1821, a French astronomer set himself the task of making a refined investigation of the motion of Uranus in order to prepare accurate tables of the planet, and succeeded in fairly representing, in tabular form, the planet's motion in the heavens. This agreement, however, was of only short duration; and in a few years discrepancies began to appear between the calculated motions and places of the planet, and those actually observed, which of course led to a searching scrutiny of calculations for any possible error. No such errors being found it was evident to astronomers that some influence was operating of which they were quite ignorant, and this being recognized, many attempts were made towards a solution of the mystery.

To put it popularly, this is what was observed: Uranus was seen to be retarded in his motion, to be behind time according to schedule, and as the years went on he became later and later until a maximum retardation was reached. Then he steadily caught up, until his calculated and observed times agreed once more. The astronomical world was on the tip-toe of wonder and expectation as to what would be observed, for it was soon seen that he continued to gain for a number of years until a maximum acceleration was reached and he began to go back again. His observed irregularities thus seemed to simulate the motion of a pendulum with a most gigantic swing.

By that time astronomers had come to the only conclusion possible under the circumstances: that there existed another planet beyond Neptune hitherto unsuspected.

And here we get the first two elements of the great equation: from the known a plus c to work out the unknown x.

The a plus c of the problem were (a) the calculated motion and time of Uranus, and (c) the observed motion and time of Uranus, between which appeared the unaccountable difference. The third element of the problem (x) being the unknown body causing the difference.

Two astronomers, Adams in England, and Leverrier in France, went to work at it, independently about the same time. The problem involved such an immense amount of calculation that Adams worked at it one and three-fourths years before he could offer provisional elements of a hypothetical planet, revolving round the sun, of such mass, and at such a distance as would, according to his calculations account for the observed perturbations of the planet Uranus. In October he sent his results to Sir George Airy, the astronomer royal, who, however, took no action in the matter at that time.

In the meanwhile, Leverrier in Paris

had been working at the problem as before stated, and in September 1846 telegraphed his results to his friend Galle, at Berlin observatory, who on September 20, 1846, turned his telescope to the assumed position, and very soon found what seemed to be a star of the 8th magnitude not laid down in any of the latest maps. Further observations for a few days placed the maker beyond a doubt that this 8th magnitude star was in reality the trans-Uranian planet, a discovery, the announcement of which created a profound sensation all over the intellectual world. "Such," to quote Professor Hinde, "is a brief history of this most brilliant discovery, the grandest of which astronomy can boast. An astonishing proof of the power of the human intellect." X Ray.

VERDUGO CANYON WATER COMPANY STOCKHOLDERS' MEETING.

The annual meeting of the stockholders of this company was held in Odd Fellows Hall Tuesday afternoon. This company is the one in which every owner of an interest in the water of Verdugo Canyon, is supposed to be a stockholder, and it might naturally be supposed that the annual meeting would call forth a large attendance. Such was not the case, however, and of the 364 stockholders in the company, the majority of them residents in Glendale and Tropic, only about 30 persons were present, representing only a little over a thousand shares in their own right. A few individuals, however, held and controlled a sufficient number of proxies to constitute a quorum, and enable the meeting to act legally. Interest centered in the contest between the two opposing factions for the control of the Tropic Water Company, which as a company, owns a large block (some 1,400 shares) of the Verdugo Canyon stock. Mr. Hugh Glassell and Mr. A. W. Collins both claimed the right to represent the Tropic Water Company in the meeting and to vote the stock held in its name. The committee on proxies, backed up by a court decision restraining Mr. Glassell from exercising any control of the company's affairs, decided in favor of Mr. Collins; Mr. Glassell entering a protest. The balloting resulted in the election of the following named members of the board of directors for the ensuing year: Hugh Glassell, A. K. Crawford, D. Griswold, Hal Davenport, E. W. Richardson, G. B. Woodberry, H. W. Bonner.

No other important business was transacted.

At a meeting of the directors held later, Mr. Hugh Glassell was elected president; Mr. A. K. Crawford vice president; and Mr. G. B. Woodberry, secretary. The election of Mr. Glassell as president seems to indicate a desire to harmonize conflicting interests as much as possible.

GLEN EYRIE CHAPTER.

Glen Eyrie Chapter, Order of the Eastern Star of Glendale, was represented at the Matrons and Patrons banquet given at Masonic Temple Saturday evening in Los Angeles, by Miss Cora Hickman, Worthy Matron of Glen Eyrie Chapter which Alhambra Chapter were the only two chapters outside of Los Angeles, who were given numbers on the program. Miss Hickman responded to the toast: "Our Friends."

Mrs. H. Stacy, of Minneapolis; Miss Fanny Glover, of Horicon, Wis., and Mrs. H. Rising, of Los Angeles, were visitors this week at the home of Mr. J. F. McIntyre.

This Paper is a Member of the Los Angeles County Press Association.

There are two or three San Francisco supervisors who have not confessed. Some men don't seem to court popularity.

Roosevelt favors Taft, and we have nominated him long ago. Let the convention proceed to ratify it!

And Joseph Benson Foraker wants to be it. Needless to remark that Joseph Benson does not approve of President Roosevelt.

Too bad!

E. T. Earl and Dr. John Haynes have been summoned to San Francisco to testify as to bribery by the telephone company.

The illustrious philanthropist who secured the bulk of his fortune out of the orange growers of Southern California in the days when the latter nearly always got red ink returns; and the other philanthropic gentleman who preaches reform per referendum, and who also has procured a fortune in one way or another, may be depended upon to give the grand jury valuable advice.

El Monte used to be noted for great crops of corn and pumpkins and for pretty nearly unanimous Democratic majorities at election time. But El Monte has evolved into a progressive settlement, which will by and by incorporate as a city, if Bro. Whitaker of the Gazette has his way about it. Further than this, El Monte distinguished itself by sending to our last legislature a real live statesman by the name of Cogswell, a Republican in politics, but not of the machine-made kind.

We congratulate El Monte by long strides it is heading for the place in the procession.

Visitors

The Shriners are not the only ones—they with their families and friends will probably number 30,000 people who will come to Los Angeles about May 1st. Then comes the National Congress of Mothers on May 10th; of whom 3000 are expected. Later in May come the German Baptists, then the Pacific Wholesale Grocers' Association, June 19th. The Eclectic Medical Association has its session here about the same time.

We shall have to let some of them get away, or there will not be room for the National Education Association of 20,000 or so. It does not look like a lonesome summer in Southern California.

A Peculiar Decision

A decision given by Judge Conrey recently, declaring that the Sawtelle Sentinel is a legally established newspaper, is in apparent variance with what seems to be a very plain provision of the law which, among other requirements, entitles a paper to bid

for legal printing, says that it "must be published and PRINTED in the city in which the work is to be done." If we remember rightly, it is admitted that the Sentinel was printed in Santa Monica. The decision is at variance with others given in other courts, and seems to show that our judges take upon themselves the responsibility, at times, of giving interpretations of the law which would be unwarranted were it not (in their opinion) that a just interpretation would lead to complications.

In the case referred to, a decision plainly in accord with the law would have entailed upon the city of Sawtelle the vexatious complications arising from the fact that all of the actions of the city trustees would have been invalidated.

It seems to a layman, however, to be a pretty serious matter to jockey the law in that manner.

The San Francisco Grafters

We have no sympathy with the idea so frequently expressed that "the bribe giver is worse than the bribe taker." This sort of talk can have only one effect, and that is to work up for the fellows who sell themselves a mawkish sentimental sympathy, which has no foundation in justice or common sense.

It sometimes happens that a man in public position is played upon by schemers more artful than himself, until he is compromised unwittingly and led by slow degrees to do an act that disgraces him; and for such an one there may well be felt a feeling akin to sympathy. But the case of the San Francisco members of the Board of Supervisors is not of this kind. They bear all the trademarks of bargain counter statesmen, they are shopworn specimens which require no placard to tell that they are for sale, and they have received their price in cold coin which they put in their own pockets. These men were put in positions of responsibility by their fellows, and they sold out their constituency. In leaving them in office, self-confessed booblers that they are, justice is sacrificed to expediency. Human nature has so much of the animal in it yet that it enjoys tearing down; and with true hunter's instinct it gets more enjoyment in bringing down big game than small. But here the parallel fails, for the real hunter of real game does not consider the larger quarry the more ignoble.

Good Roads and Streets

At the meeting of the Tropico Improvement Association last week, President Butler, of the Good Roads Association, was present and explained the objects of that organization. The object, as he stated it, is not to make broad boulevards for purposes of ornamentation, but to make a good roadway of just sufficient width to allow teams to pass; this portion to be a hard permanent roadway, either side of it graded up in the ordinary manner to greater width. He stated that one hundred miles of such road, distributed over the main traveled thoroughfares of the county, could be constructed for the three million dollars which it is proposed to bond the county for, and that this would be no heavy burden, as the present indebtedness of the county is only \$100,000. It is probable that it will not be long before this proposition will come before us for consideration and a decision.

Meanwhile the good roads question, while of great importance to all of

us, is not so vitally near to us in Glendale as the question of good streets. We are now an incorporated city and have the high privilege of self government, so that we do not have to go far in an effort to fix responsibility in case of any neglect of duty on the part of those entrusted with responsibility.

We have not reached such a point yet, however. Our officials can only do those things which they are empowered to do by the citizens and taxpayers; and good streets will have to be paid for. Self government is not

an automatic government, and our people who think that the payment of a small yearly tax for general purposes will enable them to get good streets, will find themselves self deceived. The money that can be taken from the general fund for purposes of street improvement, will only suffice for temporary work. Good streets can only be secured by a special tax upon the property owners along the line of such thoroughfares and, as a general proposition, the property owners can well afford the extra expense. Let us show ourselves liberal and progressive and push this work of street improvement as rapidly as possible.

HIGH SCHOOL NOTES.

Albert Cornwell and Miss Traphogen won first prize for their success in the pit.

The Physical Geography class will make the trip to Rubio Saturday—if it doesn't rain.

Miss Florence Flood of Pomona is spending the week with her sister, Miss E. Hume Flood.

The High School spring vacation which was scheduled for next week has been postponed until Fiesta week.

The High School board has purchased some relief maps which will be very valuable aids to the History and Geography departments.

Long Beach High won from the girls basketball team Wednesday afternoon on the local court, score 12 to 9. The home team played a good game but their hoodoo was still after them. Supt. Morgan, Principal Clayton and Miss Wiltshire came up with their team. Miss Comstock of U. S. C. refereed the game.

Miss Hazel McKown, one of the most popular members of the senior class, entertained her class mates and teachers at her home on Glendale avenue, Tropic, last Friday evening with a progressive "Pit" party. The evening was a continuous round of hilarity and everyone was in the spirit to participate. During the evening elaborate refreshments were served.

The members of the track team who participated in the Interscholastic meet at U. S. C. had the time of their lives. They were royally entertained throughout the day and evening and "Manager" Cornwell had a free lunch. The most important event of the day was the winning of two points. Richard Stine winning third place in the 100 yd. dash, and Jay Goodsell third in the 120 yd. high hurdles. This is really a good showing against a large and experienced field.

Dr. Garmon at Tropic has recently made some good sales of real estate and still has a few genuine bargains to offer on very easy terms in lots, furnished and unfurnished houses. Call on him if you want a good home.

LA CRESCENTA.

Mr. and Mrs. Booth and family have returned from an eastern trip.

Mr. Charles V. Pleukharp has sold his ranch on Michigan avenue to Mrs. Eaton.

Mrs. Burns, who was so seriously ill last week, is reported to be steadily improving.

Miss Banning, one of the guests of Fairmount, has just purchased three lots in the Brown tract. She intends to erect a bungalow in the near future.

Mr. King and party have left for their home in Omaha. Before starting east they will spend a few days at Catalina and another day at San Francisco.

Miss Katherine Krug and Miss Wilna Bechtel entertained with a farewell dinner party on Easter Sunday. Those present were Mr. and Mrs. Ignace Scherb, Mr. and Mrs. Klitten and son Carl.

Booth-Nichols

The marriage of Mr. Burnett C. Booth and Miss Louise C. Nichols was solemnized at the home of the bride's mother on B street between Second and Third, Wednesday afternoon at 4 o'clock. Friends from Cincinnati, St. Louis, Long Beach, Los Angeles, Lomita and Glendale were present.

The rooms were very beautifully decorated with ivy and roses and fern. The ceremony was performed by Dr. Ward of the Presbyterian church, the bride's pastor. A very appetizing collation was served to the guests by three girl friends of the bride. The bride's gown was such as a mere man cannot hope to describe, but can only admire and wonder at.

Report said that the groom had a great deal coming to him on account of previous occasions of like nature. If he was not fully paid by his friends for all old scores, he must have been very active, and his friends did their best to wipe the slate clean.

Mr. and Mrs. Booth will be at home to their friends after May 1st, at 524 West 42d street, Los Angeles.

To-morrow (Sunday) afternoon the corner-stone of the new German Church of the Evangelical Association, of Burbank, will be laid on the site of the new building on E. A. Knapp's place on Magnolia avenue. The services will begin at 3:15, the Rev. F. Cordes officiating.

BAPTIST CHURCH SERVICE.

The Easter service at the Baptist church was well attended and enjoyed by all. Many gardens had contributed a wealth of lily and other flowers which were arranged in such a way as to make our church home very beautiful. The two anthems by the choir were rendered in such a way as to call forth many expressions of approval. The duet by Mrs. F. and Mr. J. Marple was a tribute to the Holy One whom we worship. The address by the pastor was in harmony with the thought of the hour.

The service in the evening was a medley of sermon and song. A continuation of the morning thought and was even more largely attended. It was a good day with us and we trust inspired us to nobler thoughts and deeds.

The subject Sunday morning at the Baptist church will be Descendants of Royalty. In the evening, An Old-time Church Service.

VERDUGO PIPE AND RESERVOIR COMPANY STOCKHOLDERS' MEETING.

This company endeavored to hold its annual meeting Monday evening last, but was unsuccessful in securing a quorum and therefore transacted no business. As a result the old board of directors will hold over.

M. E. CHURCH NOTES.

Rev. W. S. Blackburn preached a very helpful sermon on Easter morning. The special music by the choir was heart inspiring, "O come let us sing unto the Lord; let us praise His Holy Name."

Services consisting of an address and songs, followed the sermon in memory of Mrs. C. O. Rich who was a worthy member of our church and who was very active in work in His name as long as health would permit. She has gone to her reward in Heaven. The program given by the S. S. in the evening was largely attended and was duly appreciated. Every part of it being in harmony with the day we celebrate.

The regular monthly meeting of the W. F. M. S. will be held in the Sunday school room of the M. E. church on Tuesday, April 9 at 2 o'clock. All members and friends are earnestly requested to be present.

There will be a meeting of the Standard Bearers on Wednesday next, April 10 at 3:45 in the Sunday school room.

A pleasant family party gathered last Sunday at a picnic dinner in Sycamore canyon. It consisted of Mr. and Mrs. Simeon Grant, Mr. E. K. Grant and family, and Mr. O. S. Grant with his wife and two children; and Miss Nettie Watson and Harry Wilde. The picnic was particularly in honor of Mr. O. S. Grant and family who are soon to return to Nebraska after having been a month or more in Glendale at the residence of Mr. Simeon Grant on Sixth street. A twenty-five pound turkey graced the festivities at the beginning, but it was a sad wreck at the finish. The day was one of southern California's finest and the pleasant occasion will long be remembered by the participants.

Pianos

A recent number of the Review of Reviews, publishes an article on "The Old Masters and a Modern Masterpiece," in which the Baldwin piano is lauded in glowing terms by such artists as De Pachmann, Pugno and Sembrich. By reference to our advertising space it will be seen that this piano and some others of excellent make are to be on exhibition at the Glendale Furniture Store for ten days, beginning next Monday. It speaks well for the reputation of Glendale that we should be upon the list of towns in which such a sale as this should be considered.

School Election

The election held on Friday for two trustees of the Glendale grammar school, resulted in the practically unanimous re-election of Mr. B. H. Nichols and Mr. Geo. E. Byram for three and two years respectively. We congratulate the community on this result, as it forecasts the retention of the present efficient corps of teachers.

Death of Andrew Cardinalli

Andrew Cardinalli, who resided on the east side of Verdugo Road opposite Ninth street, died at the Good Samaritan hospital Thursday night or Friday. Particulars have not been obtained, but there is room to believe that his death was caused by one or more knife wounds.

The Bank of Glendale will open a regular savings department on April 15th, paying 4 per cent interest, compounding the same every six months. It seems to the best interest of this community to do this because of the large amount of money going to the Los Angeles savings banks that should be kept here and used in the development of our own community.

A LITTLE TALK ON PRICES!

Whether you trade with us or other grocers, don't feel "sore" if some of the articles come to you at a slight advance in price over your former purchases. Grocers to-day are doing business at a heavier expense and on a smaller margin of profit than ever before, due to the era of prosperity prevailing. Manufacturers and packers are advancing everything, and if we do not make some slight advances the condition will soon develop wherein we cannot exist; but we do not want you to feel that it is an effort to "cinch" you, but it is just a plain proposition of

MISS MILDRED AYRES SHOWERED.

"Beth-Eden" the attractive new home of Miss Harriet Meyers, was transformed into a bower of loveliness and fragrance Thursday afternoon, when the Tropico Thursday afternoon Club entertained with a china shower, complimentary to Miss Mildred Ayres, whose marriage to Mr. Charles Mosher

is one of the approaching social events.

Gaily festooned throughout the floral decorations were prettily arranged numbers of red hearts of bristol which lent a most appropriate suggestion of the motif of the occasion. An amusing guessing game was enjoyed in which the hostess arranged to have the happy honoree receive the consolation prize. Upon awarding the prize Miss Ayres, suspecting nothing, was informed that she had received the booby prize which was a glimpse of an oriental city.

Miss Ayres was then invited to peek in china (Pekin, China) and beheld a most beautiful array of very pretty china, which will add much towards the useful decorations of the pretty new bungalow Mr. Mosher has just completed on Tenth street and to which Miss Ayres will soon go as a bride. Dainty refreshments were served in the dining room where a number of toasts were given to Miss Ayres and the prospective bridegroom.

The Farmers report that the apricot crop in this part of the county will be very light this season. What bloom the rain did not kill was killed by the frost. The rain and frost did not seem to hurt the peach crop, and prospects are that the crop will be a large one. Watermelons and canteloupes are being planted.

Mayor Harper assured them so far as his office was concerned, that they would have fair treatment, and he believed that the water commissioners did not intend to enforce the injunction during the ensuing season.

All the churches of Burbank gave special Easter services on Sunday morning with sweet carols and anthems and appropriate Easter hymns.
